

Knowledge at the GEF

What is **Knowledge**?

“Knowledge” is defined as the understanding of a subject.

At the GEF, this is the experience and lessons learned related to projects and programs.

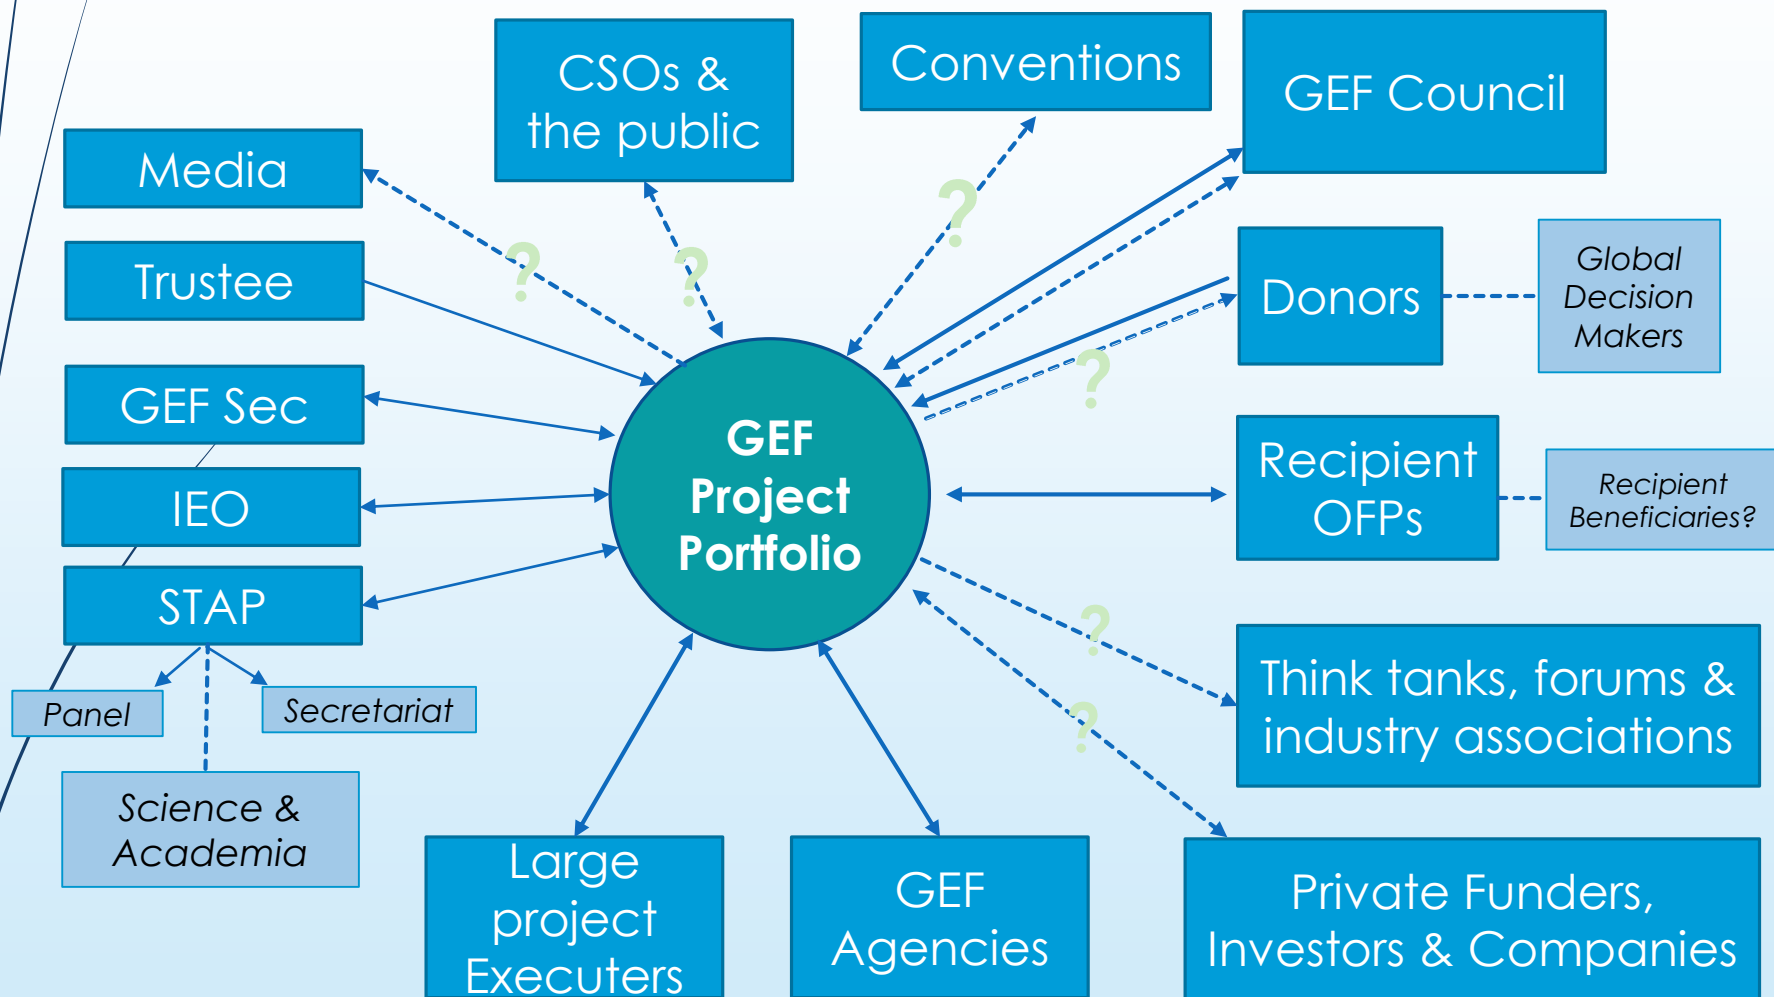

Why **KM**?

It is an

**Essential condition for
GEF finance**

to make a lasting **impact.**

KM FLOWS

GEF Partnership

Informing National, Regional and Global Dialogues

Portfolio level

Program

Project
Level

Improving Project Quality

Objectives

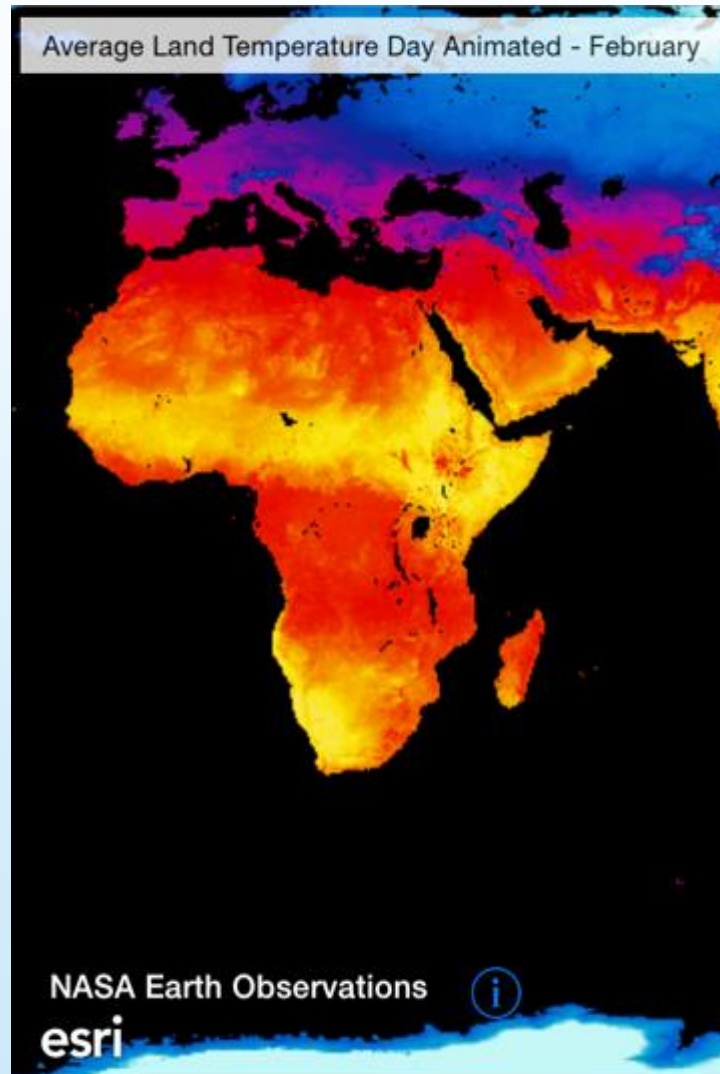

- ➡ **Objective 1:** To inform global, regional and national policy dialogues on options and approaches to reverse the course of environmental degradation.
- ➡ **Objective 2:** To improve the impact of GEF-supported projects and programs.

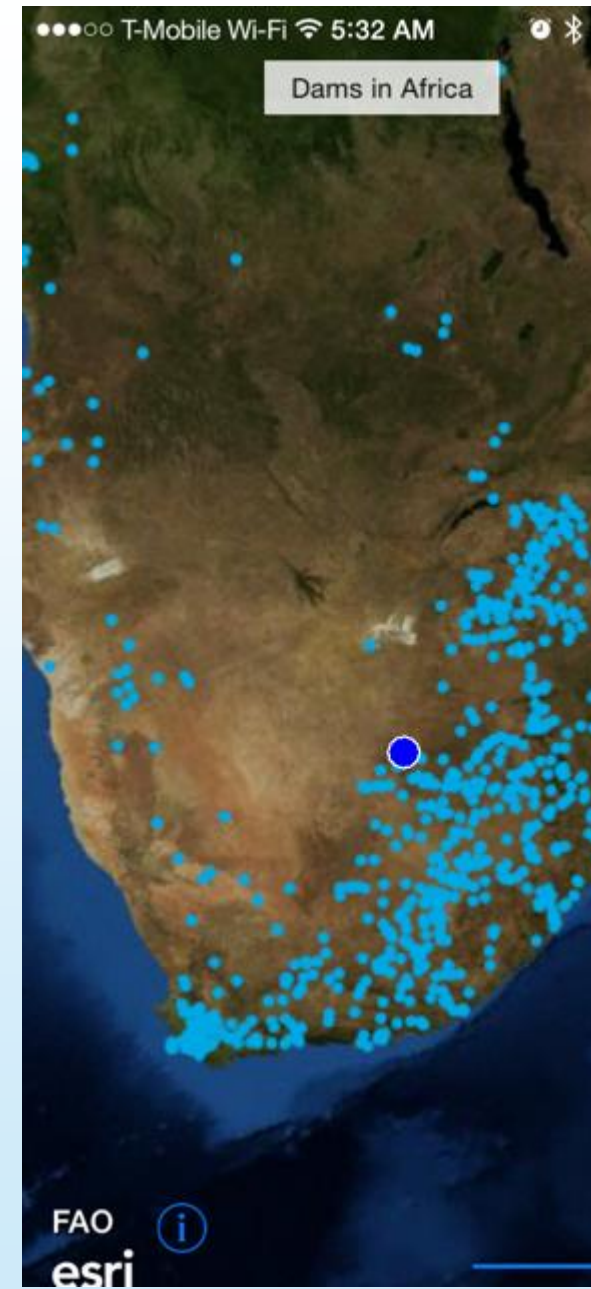

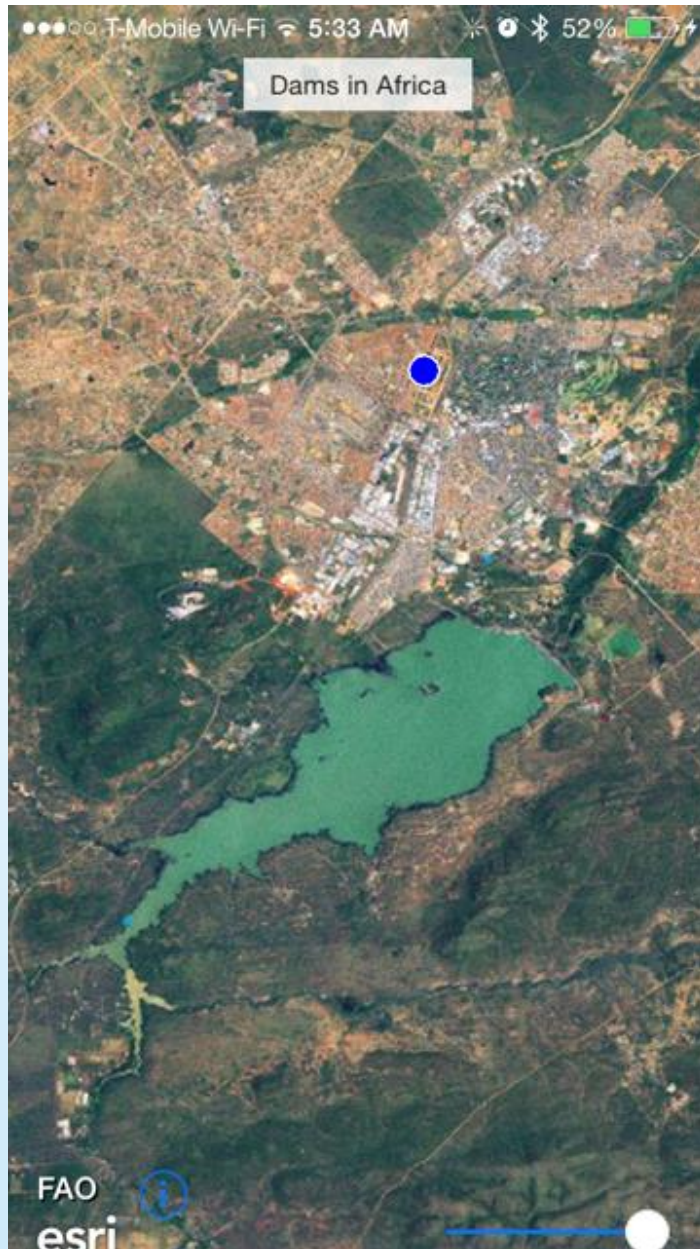

Knowledge Products

- GEF **“Lessons in a Nutshell”** Series
(objectives 1&2)
- GEF **publications and multi-media** series
(objective 1)
- **Lessons learned** for inclusion in GEF’s AMR
(objective 2)
- GEF **knowledge products repository**
(objectives 1&2)

Spatial Agent

Ultimate Product

GEF KM System and Learning Platform

The GEF KM System and Learning Platform will enable uptake of lessons learned in the GEF and improve the GEF Partnership's ability to learn by doing, enhancing its impact over time.

Actions & Opportunities

- Reinforce uptake and generation of **actionable knowledge** at the program/project level *-across the GEF Partnership.*
- Improve **capacity of GEF's technology platforms** – *including an open-access approach to data*
- **Maximize impact** from the **IEO, STAP** and the GEF **CSO** network
- **Forming new partnerships** with the private sector, think-tanks, science organizations and academia
- Creating opportunities for **south-south knowledge exchanges**

Key Questions

- ➡ 1. How can Countries better contribute to KM needs in the GEF Partnership?
- ➡ 2. How can the GEF better contribute to KM needs from Countries?
