INTRODUCING THE carbonn CLIMATE REGISTRY

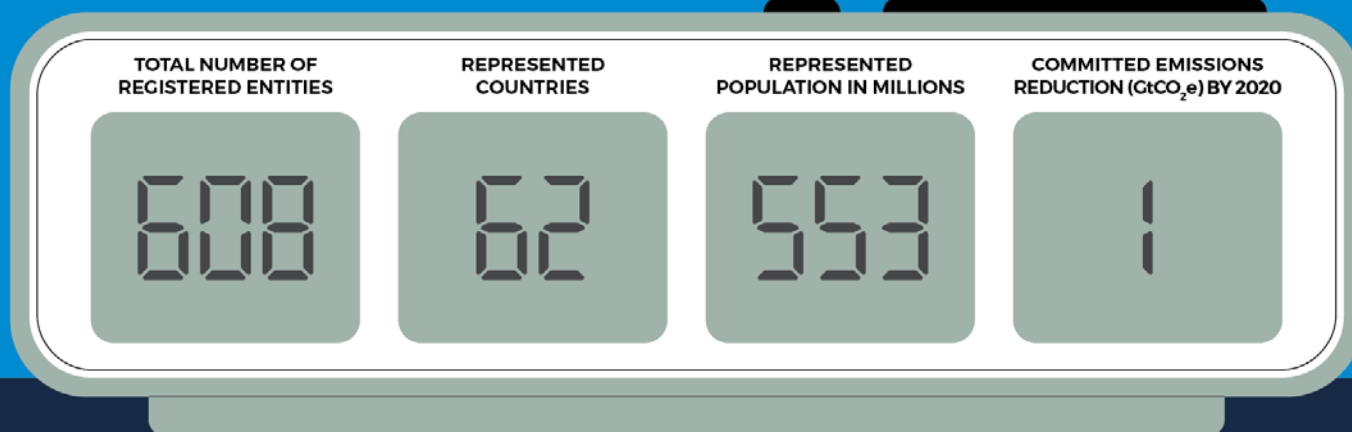

● Local governments
◆ Other subnational governments

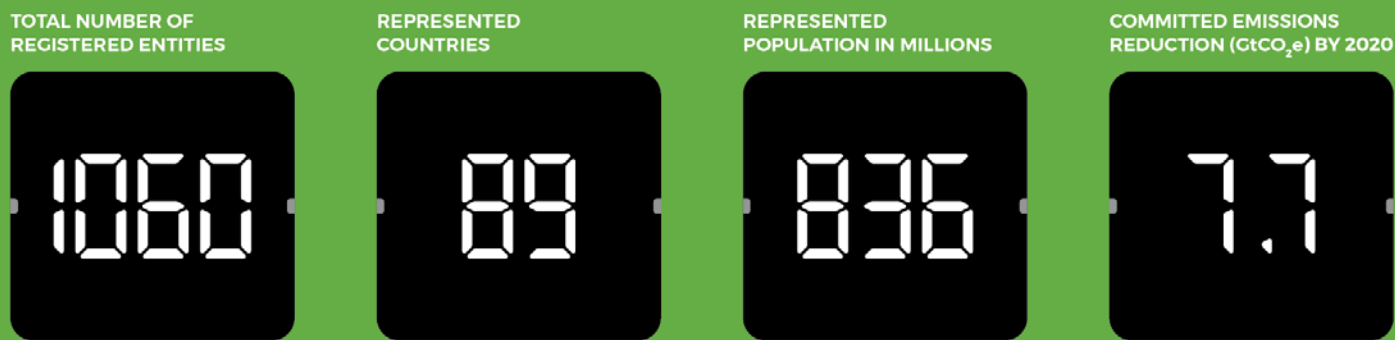

INCREASED AMBITION SINCE PARIS AGREEMENT

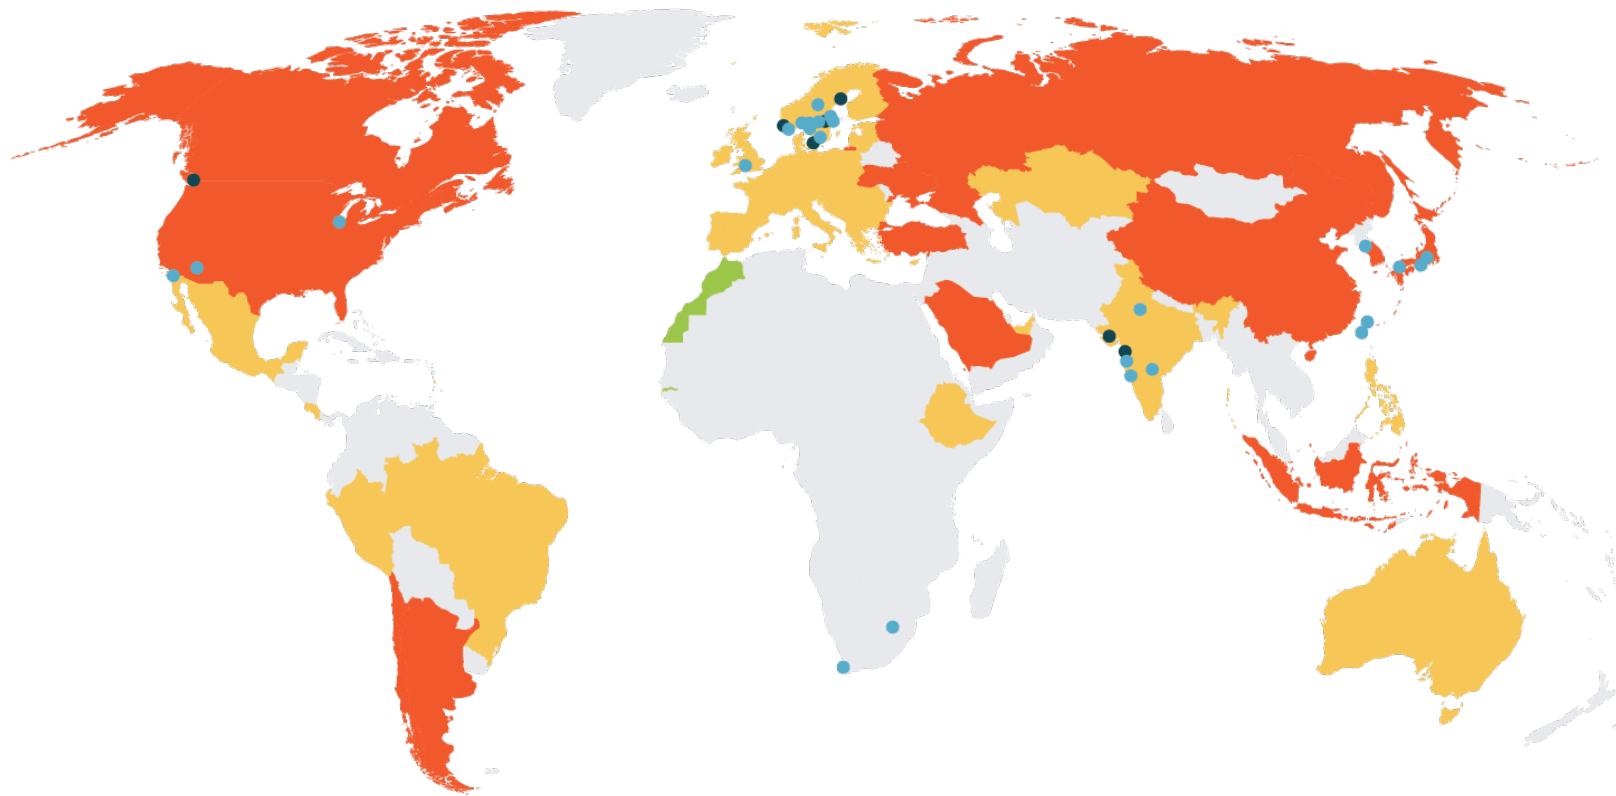

2015

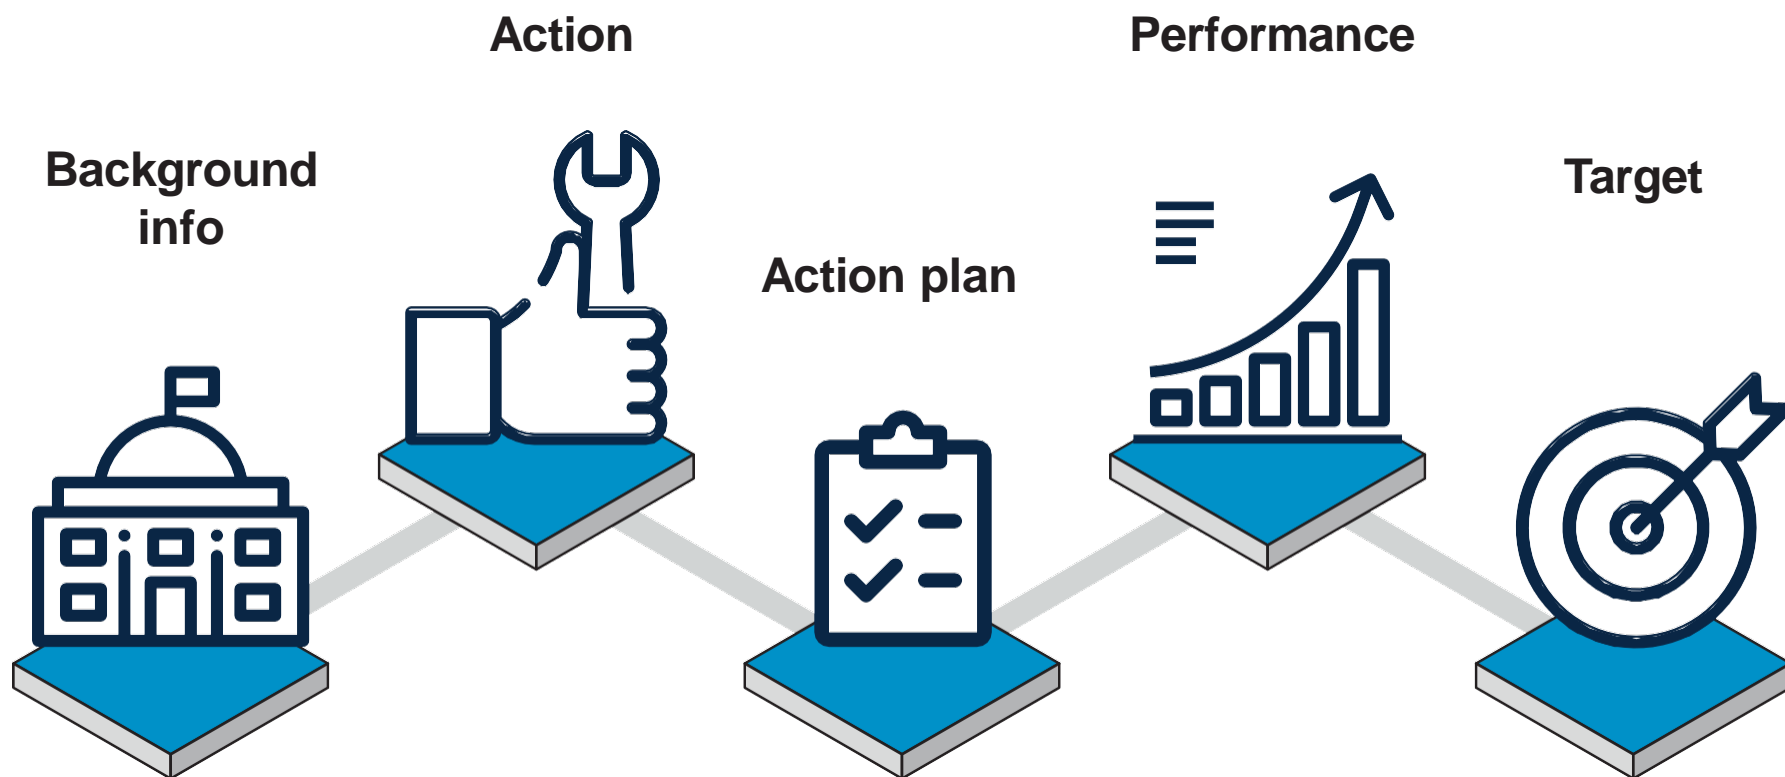

2018

INCREASED AMBITION SINCE PARIS AGREEMENT – nations and subnationals

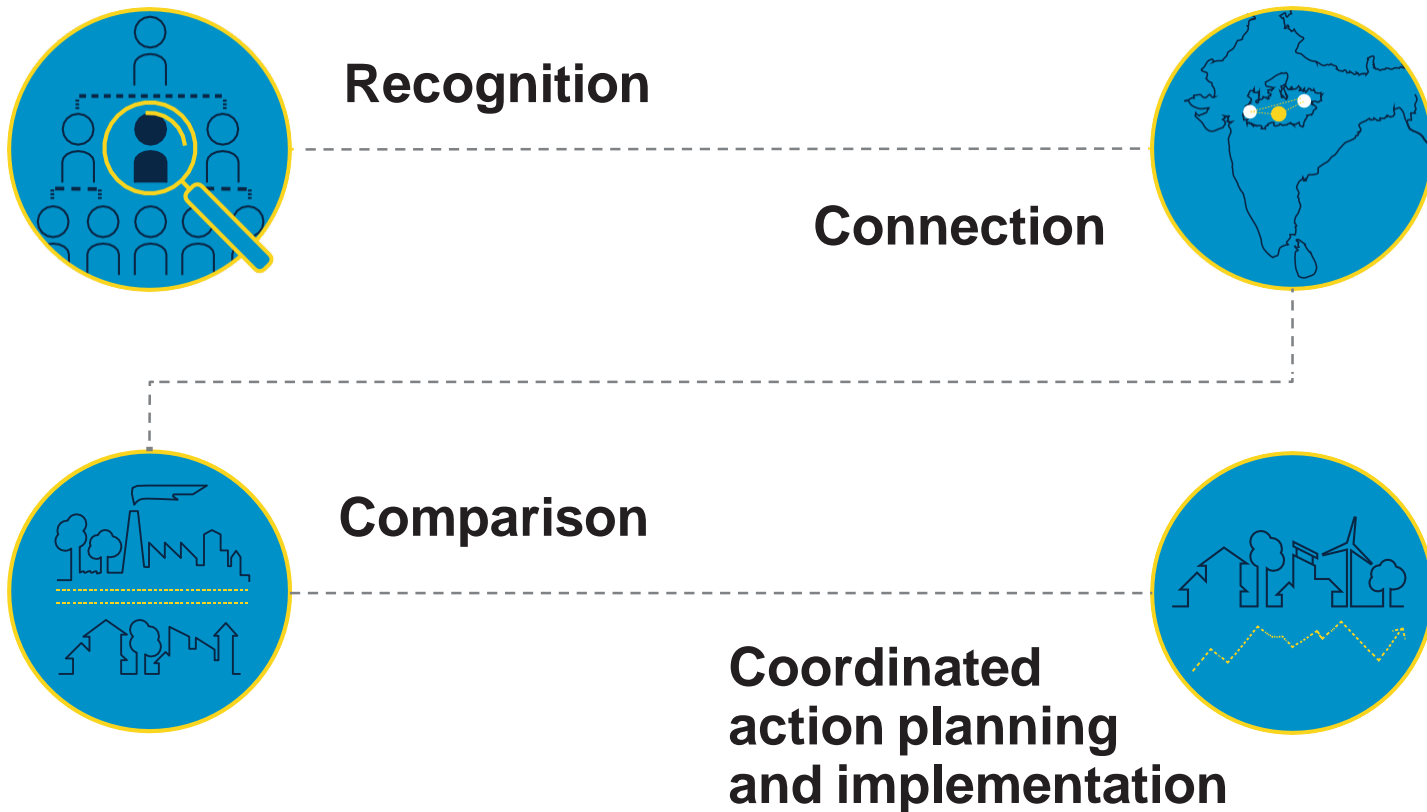

WHAT DO WE COLLECT

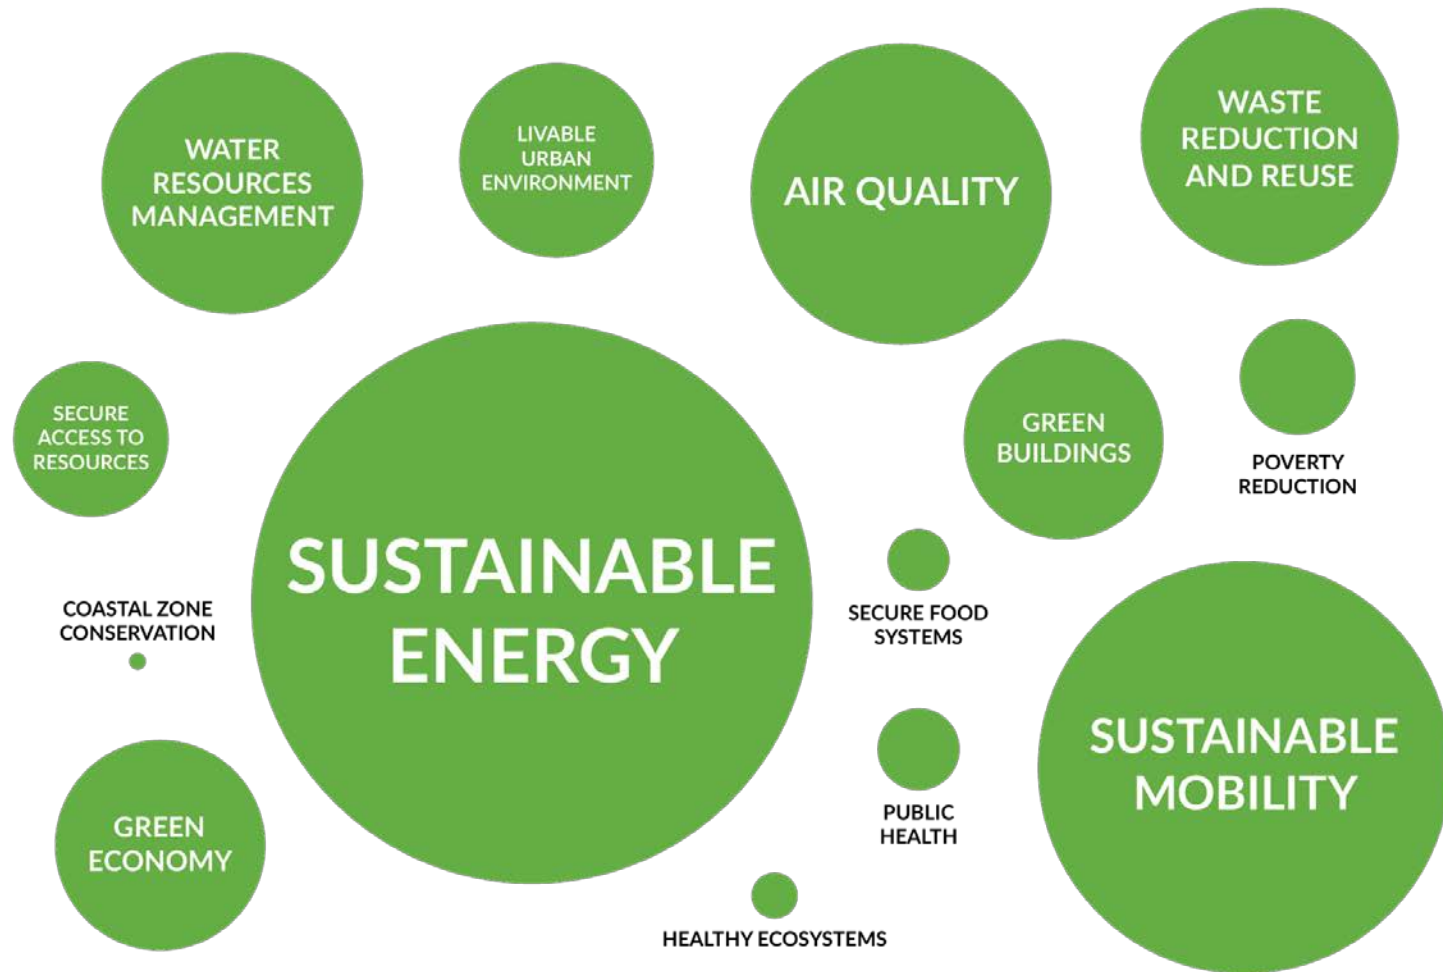

Low emission development; climate resilience; sectoral approaches: energy, building, transport, waste; water and air quality

MULTILEVEL GOVERNANCE FOR CROSS BOUNDARY ACTIVITIES

How cCR supports integrated MRV

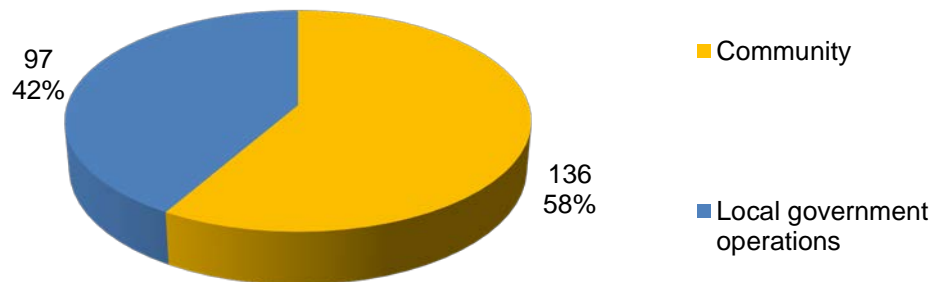

INTERLINKAGES and BENEFITS

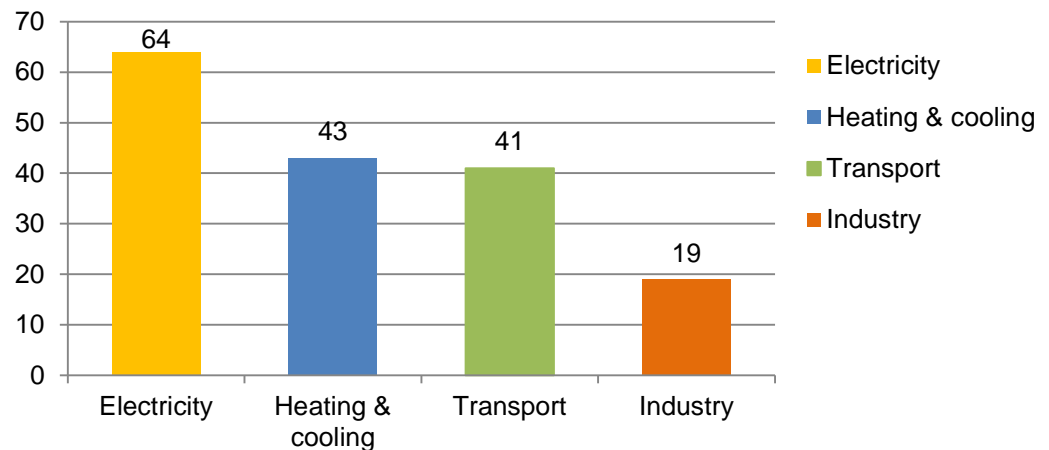

SECTOR SPECIFIC ANALYSIS, RENEWABLE ENERGY

**Renewable energy targets reported
in cCR**

**Sectors covered by RE targets
reported in cCR**

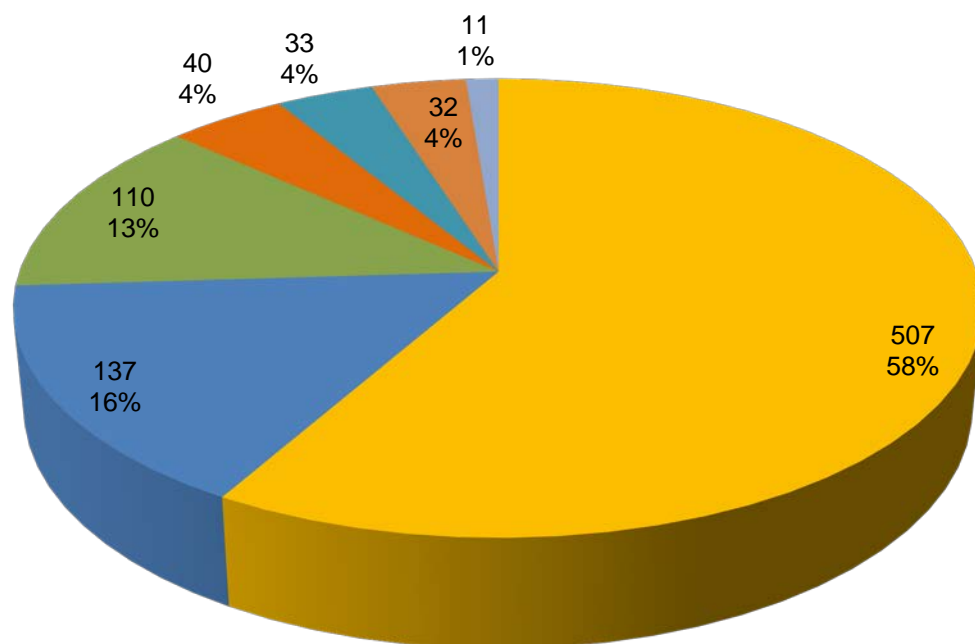

City of Malmö, Sweden

- Two 100%RE targets:
 - 100% RE in local government operations by 2020
 - 100% RE at community-scale by 2030
- These targets allowed mainstreaming of renewable energy support across the City's plans.

Renewable Energy generation - actions reported in cCR

- Technical/Infrastructure investment
- Policy/Strategies/Action Plans
- Education/Awareness/Engagement/Organizational/Governance
- Fiscal/Financial mechanism
- Assessment/Research
- Regulatory
- Not specified

- Raising the level of ambition of Nationally Determined Contributions (NDCs) – vertically integrated NDCs.
- Tracking performance, identifying gaps and opportunities – evaluation, redirect, accelerate.
- Optimizing efficiencies and impacts together
