GEF Website redesign: take part!

GEF website is about to get a new design.

In the summer of 2021 we will be testing the new design with our external users, and would like to ask you to take part in the process.

We will reach out via email this summer.

THANK YOU!

The GEF Portal

New GEF System for Project Review, Information
and Reporting

Launched in GEF-7

- New and updated system for three main areas of partnership work:
 - *Project review process* – submission, review and approval of projects proposed for funding
 - *Project implementation modules* – information, data and reports at implementation
 - *Project data and information system* - capture, aggregate and report on project portfolio
- Agencies, PFPs and OFPs have access- - need to register (ITS); links to website
- Major system transition – for efficiency, transparency and advanced IT capabilities

Project and Program Proposals

➤ Entry fields aligned to GEF-7 programming strategy, policies and operations

- Project type, programming objectives, results framework, policy requirements
- Project description and theory of change (link to *What STAP Looks For*)
- Mapped to GEF-7 financial table for programming and STAR allocations
- Upload features for supporting documents, including OFP Endorsement Letters
- Review sheets from Secretariat (built-in workflow)
- Inputs from STAP; connecting Conventions now

➤ Designed to support GEF-7 agenda - quality-at-entry for highest results

Project Implementation

- Entry fields aligned to key required data and information at implementation (new):
 - Data on ratings, timing of project (first disbursement, MTR, TE)
 - Policy implementation (safeguards, stakeholder engagement, gender) and KM
 - Results and materialized co-financing (at MTR and TE)
 - Lessons learned (at MTR and TE)
- Upload of corresponding PIRs, MTRs, TEs – per Monitoring Policy
- One-stop shop for entry of data and documents during implementation

Data and Reporting Features

- Can access updated data and information on GEF-7 and GEF-6 projects
 - Real-time data on all projects and on uses of STAR allocations
 - Displayed in spreadsheets with extensive information

- Goal: information and transparency to all users
