

Scientific and Technical Advisory Panel to the Global Environment Facility

**GEF Introduction Seminar
22 – 24 January 2019
Washington, DC**

Where does STAP fit in the larger GEF Partnership?

What is STAP?

STAP provides independent scientific and technical advice on the GEF's policies, strategies, programs, and projects.

The STAP consists of six Panel Members, a Chair, two advisors and is supported by a Secretariat.

How does STAP work?

The Chair submits a report and makes a presentation at each GEF Council meeting.

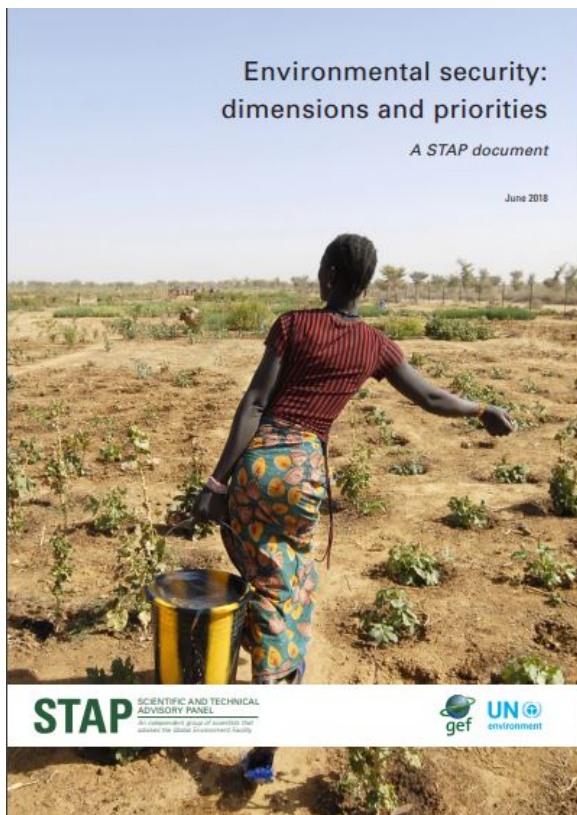

Executes a program of work developed in collaboration with the GEF.

Screens GEF projects.
